

# **ASAT VTC NAME CHANGE**

Beginning with the February ASAT  
VTC,  
there will be a name change.  
These sessions will now be known  
as the

**TRAINING DEVELOPER  
COLLABORATION FORUM  
(TDCF)**

- **This change will reflect the expanded focus of ATIA. Our focus will be to expand subjects to more than just issues with the programs.**

- **We are looking for conversations and solution proposals that impact not only training development but those actions which occur to make training development happen.**

- **Identifying those “other” training development support issues may result in new or reprioritized requirements in ATIA.**

- **Currently all training development is based on “what” must be done. What we need is a better grasp on how we can help support the “how-we-get-there” solutions.**
